

1.5MW Mobile Generator Package

Model: XQ1475G

Rating (kW)	1475kW
Voltage	240V/480V (60hz)
Fuel Type	Pipeline Natural Gas
Engine Model	CAT G3516C
Generator Model	CAT SR4
Electrical Efficiency	37%
Dimensions (LxWxH)	40' x 8' x 9.5'
Weight	79,372 lbs
Sound Attenuation	72 dB(A) @15m
Fuel Pressure (Inlet)	3.0-70 PSI
Remote Interface	CAT Connect PLE601
NOx Emissions	500mg/Nm ³ (w/o treatment)

FREEDOM TO ADAPT · POWER TO PERFORM

Our mobile power systems are fully self-contained, including fuel & lubrication systems, filtration & ventilation, exhaust silencer, controls, black start capabilities, and power regulation systems including auto-synchronization, giving our clients the freedom to adapt and power to perform.

Applications:

Disaster
Recovery

Oil & Gas

Temporary
Power

For Leasing and Technical Information:
